FOREWORD

"Forward!" is the keynote for Le Grand Union High School.

In our days as students of Le Grand Union High School, we have done a great deal with the equipment and facilities we have had - and most of the time we have enjoyed doing it. Soon the sound of rain on tin roofs - the annoyance of too much and too little heat - the depressing influence of makeshift and ugliness - will be memories only.

As the new building comes into being, we can see a new spirit arising to match its beauty and comfort. We, the pioneers, leave this book to the progressive ones who will follow as a source of encouragement. Let them aim high as we have aimed high. Under the leadership of our principal and advisors let them fulfill the promise which we worked to make a reality.

To

Mr. Ellis G. Carr

Whose guidance and help have brought many a senior of this graduating class and others through the difficulties of high school. In the years of decision ahead those who have come to know him will find the memory of his quick and good-humored readiness to do and to hear a constant source of inspiration.

CLASS HISTORY

The class of '48 started this school year with twenty-five members in the class with Mrs. Norma White and Mr. Ellis G. Carr as advisors.

On October 22 we had a joint skating party with the Juniors at Merced. Then Sherry and Roger Kahl gave a Christmas party at their home for the Seniors and presents were exchanged by everyone.

The Juniors honored us with the annual snow party at Yosemite February 14. We played in the snow, ice skated, and went bob-sledding.

On April 9 we gave our class play, "The Groom Said No", which helped us out of our financial difficulties. The members of the cast gained some knowledge of public speaking and a great deal of pleasure working on the play.

In May we went to Santa Cruz on our annual "ditch" day. On May 14 the Juniors entertained us with a Prom at the Womens' Club House in Merced.

On May 29 we attended baccalaureate, and Commencement, June 2, which was the climax of our high school careers.

CLASS PROPHECY

This is the account of the so-called Class of '48, their whereabouts and past times. Any similarity between their actions and normal doings is purely coincidental.

Kenneth Sowder, famous scientist, has just been awarded the Nobel Prize for his outstanding thesis on "Which Comes First--The Chicken or the Egg?"

The nation is holding its breath to see who the former famous basketball star, James White, now the coach of his own team, will put on the bench in the forthcoming game between Fresno High and Le Grand High. He has three sets of twin sons, who match the ability of their father in sinking baskets.

Because of his experience as bus driver at Le Grand, Luther Bagwell is now president of the Largest Bus Line in the world.Even though he has such a high position,"Luke" still insists on driving one of the shorter runs.

Neil Tiewater and Fred Soto, the men who designed the rocket ship that made the trip to the moon are now multimillionaires because of Mr. Tiewater's brilliant idea of bringing home a large quantity of green cheese which they sold for a great profit.

Those two students who everyone thought would succeed (and did), Clayton Robertson and James Phillips, after graduation from high school, ran a shoe shine shop in Pfanada. Because "Moke" insisted on giving everyone a free pedicure, their business boomed. After a prolonged search, Clayton discovered an ingredient for shoe polish that made a shoe shine last for one year. They are now living off the ten-million dollar royalty. It's hard to tell which of their mansions they're living in down South America Way.

Roger Kahl, our local constable, was presented today with a gold watch in appreciation of 10 years' faithful service. Mr. Kahl's devoted wife, the former Sherry Harmon is now running their ranch, "Bar Nothing."

Two gay divorcees, Lorna Wade and Velma Lang, have recently returned from a trip to Europe where they claim that they went to search for radium, but decided to return to America to continue their famous careers as movie stars.

We see that Marilyn Sano, famous exclusive dress designer for Hollywood stars, has hired two outstanding artists, Kathryn Mitchell and Don Pugh, who, she says, are the only ones that can do justice to her frocks.

In Canada we find Jack Petitt working at Sorensorm's Slippery Saw Mills. We learned from a former Junior that he has perfected his ability in handling the buzz saw. He is practicing now for the forthcoming match with George "Callous Foot" Kuniyoshi for the log-rolling championship.

Christine Jenkins, well known since her last book, "The Shorthand of Shorthand," has just gone into partnership with Billie Jane Stollings. They have bought out the Telephone Companies and think they will be very successful.

Donna Gillette has established a school which she appropriately calls "Nutty Knitters' Institute." She says their specialty is argyles.

Ruby Moncada, who joined the Marines so she could be near her husband, adapted herself so well to being a Marine that she has become the first woman Major.

The heated political battle for the important position of mayor of Le Grand was culminated today by the election of Vern "Moose" Renwick, who defeated his opponent, Eugene Jones, by one vote. This was a blow to Jones as he was trying to work up to run for President.

Professor Bill Campbell, whose original idea was to have transparent leaves in books so students wouldn't have to turn pages, just selected his eleventh wife.

Donald Burchell, proprietor of the Chinese restaurant "Sum Chow," disclosed to reporters today that his new assistant, Willard Kauble, has discovered a new worm that is longer, fatter, and tastier. Donald guarantees that all meat used in his food is home grown.

CLASS WILL

We, the Class of 1948, Le Grand Union High School, do make the following as our Last Will and Testament.

To the heartbroken faculty we will and bequeath, with mingled joy and grief, our absence.
To the Juniors, our worthy but conceited successors, we leave our everlasting hope that someday they will become as good Seniors as this class.
To the lovelorn Sophomores we leave our poise and dignity to act like ladies and gentlemen.
To the green Freshmen we leave our ability to be a model class.
To the hopeful Eighth Grade we leave our outstanding upbringing.
To the gay Seventh Grade we leave our ability to advance mentally.

I, Luther Bagwell, will my ability to "Goof Off" to Harvey Killman. and Joe Davis.
I, Donald Burchell, will my "arguing tennis rules" ability to Kenneth White.
